Treasure ideas:

- OLD OR FOREIGN COINS

1 Gather all the materials, you'll need a grown-up to help too.

2 Remove the socks from the box (and put on feet).

3 Paint the inside and the lid of the box. Let it dry.

4 To make the central divider, cut a rectangle out of card the length and height of the box with 1cm extra at each end (to turn over). To make the section dividers, cut three squares the width and height of the box. Add a dotted cutting line as shown.

5 Paint the dividers and, when they're dry, cut along the dotted lines. Then slot in the central divider down the middle and the smaller ones on top to make eight compartments.

6 Fill the different sections with things you think are important or interesting.
